

Website Design and Development Contract

Date: Apr 8, 2026

Project Title: Al Aman Trust Business Website Development

This contract is entered into by and between:

Party	Details
Service Provider	Genikode
Address	📍 Genikode
Representative	Ghayas Ali
Client	Al Aman Trust
Address	📍 Kensington Gardens
Representative	Rizwan Razzak

1. Project Scope and Objectives

Genikode agrees to design, develop, and deploy a professional, CMS-based business website for Al Aman Trust. The primary objective is to create a modern, clean, and

corporate website, consisting of 5–6 pages, that aligns with Shariah-compliant branding principles and provides an independent content management capability to the Client.

2. Solution Overview

The website will be developed using a PHP Laravel framework, featuring a custom-built Content Management System (CMS) to allow the Client to independently manage and update all website content.

Design & Key Features

- Fully responsive design (mobile, tablet, desktop)
- Modern and professional corporate UI/UX
- SEO-friendly structure and clean URLs
- Optimized performance and fast loading speed
- Contact form with email notifications
- Custom CMS built on Laravel
- Easy content management for pages, text, images, testimonials, and blog posts
- Secure admin panel with role-based access

Technology Stack

Component	Technology
Backend	PHP Laravel
Frontend	HTML5, CSS3, JavaScript
Database	MySQL
CMS	Custom Laravel-based CMS
Security	Secure admin authentication and form validation
SEO	Standard on-page SEO setup (optional)

3. Estimated Timeline and Deliverables

The project timeline is estimated as follows, contingent upon timely feedback and content provision from the Client:

Estimated Timeline

Phase	Duration
Requirement Finalization	1 – 2 Days
Design Approval	1 – 2 Days
Development & CMS Setup	10 – 14 Days
Content Integration & Testing	1 – 2 Days
Deployment & Go-Live	1 – 2 Days
Total Estimated Duration	14 – 22 Working Days

Deliverables

Upon successful completion of the project, Genikode will provide the following:

- Fully functional Laravel-based CMS website
- Secure admin panel with usage guidance
- Source code and deployment on a live server

4. Cost Breakdown and Payment Terms

The total estimated cost for the project shall not exceed PKR 120,000.

Cost Breakdown

Item	Estimated Cost (PKR)
UI/UX Design	25,000
Laravel Development & CMS	65,000
Content Integration & Testing	10,000
Deployment & Configuration	10,000
SEO & Performance Optimization	10,000

Item	Estimated Cost (PKR)
Total Estimated Cost	120,000

5. Intellectual Property

Upon final payment, the Client will be granted a perpetual, exclusive and copyright license for Al Aman Trust website including all underlying codes, images and intellectual property rights thereto. The Client warrants that they have the right to use all content (text, images, logos) provided for integration into the website.

6. Creative Assets & Licensing

We confirm that all stock imagery and logo concepts provided by us are royalty-free. Upon the final settlement and delivery of the project, the usage rights for these assets as they appear on the website will be transferred to you as part of the deliverables.

7. Hosting & Environment Setup

We are happy to accommodate hosting on your servers. We will take responsibility for:

- Identifying and installing all necessary prerequisites (server environment, databases, and dependencies).
- Executing the deployment within your specific infrastructure.
- Conducting a final handshake test to ensure the environment is fully optimized.

8. Training & Documentation

To ensure your team is confident in managing the platform, we will provide:

- **Live Training Sessions:** A walkthrough of the CMS for your designated staff.
- **Resource Library:** Recorded video tutorials and a PDF "How-To" guide covering routine updates and content management.

9. Warranty & Support

We will include a 6-month Post-Deployment Warranty. During this period:

- We will provide troubleshooting and bug fixes at no additional cost.
- Our team will ensure the site functions exactly as agreed upon during the hand-off.

10. Additional Licensing

Regarding your question on components:

- The core CMS and the frameworks we use are generally open-source (no recurring fees).
- If we decide to implement specific premium third-party plugins or specialized APIs for advanced functionality, we will provide a breakdown of those costs for your approval beforehand. Currently, no additional licenses are required for the standard scope.

11. Acceptance and Signatures

By signing below, both parties agree to the terms and conditions outlined in this contract.
